Juzer Shaikh, PhD, IISc Bangalore, **(Graduated Batch : 2016)**

Current job: Postdoctoral Associate at the University of Minnesota.

email- jshaikhm@umn.edu

I completed my bachelor's degree in Civil Engineering from PCCOE, Pune, graduating in 2016 as part of the department's very first graduating class. Being in that inaugural batch was a unique experience. We were nurtured in a well-rounded academic environment that emphasized both rigor and curiosity.

I had the privilege of learning from some of the finest teachers at Pune University, who helped make even the most challenging subjects engaging and accessible. Their guidance played a significant role in shaping my academic foundation and professional outlook.

I am proud to be a PCCOE alumnus and remain deeply grateful to the institution and its faculty for the opportunities and mentorship they provided.

Juzer

Roshan Mankhair **(Graduated Batch : 2016)**

PhD and MTech in Environmental
Science & Engineering
IIT, Bombay

My journey toward higher studies was firmly shaped during my undergraduate years at PCCOE. The faculty at PCCOE played a pivotal role in laying a strong academic foundation and nurturing my curiosity for learning, which eventually motivated me to pursue higher studies. Their depth of knowledge, constant encouragement, and, most importantly, their approachability made learning both engaging and inspiring.

Beyond academics, PCCOE always felt like a home away from home. The supportive environment, open interactions with faculty members, and a culture that encouraged questions and independent thinking helped me grow not only as an engineer but also as a confident individual. The institute provided ample opportunities for my overall development including technical, professional, and personal, preparing me to face future challenges with confidence.

I will always remain grateful to PCCOE for shaping my academic journey and for being an integral part of who I am today.
